

National Quality Mentoring System

WHAT IS THE NATIONAL QUALITY MENTORING SYSTEM?

The **National Quality Mentoring System (NQMS)** helps programs adopt evidence-based mentoring standards and procedures through a **guided self-assessment and coaching process**. MENTOR: the National Mentoring Partnership and its affiliates developed the NQMS to **raise the quality of youth mentoring programming** in the United States through a structured, systematic approach.

WHAT IS THE GOAL OF NQMS?

The goal of NQMS is to help programs **demonstrate or improve their quality** through a customized assessment of current practices. NQMS **highlights the strengths of mentoring programs** and **builds a plan for continuous improvement**.

HOW DOES IT WORK?

1. The mentoring program completes an online **Quality Assessment**, based on the *Elements of Effective Practice for Mentoring* guidelines.
2. MENTOR Independence Region (MENTOR IR) evaluates the assessment and provides each program with a **customized action plan** with steps for **continuous improvement**.
3. Programs identified as **Quality Mentoring Programs** receive public recognition, priority listing in the national Mentoring Connector database, credibility and validation, and results to use in funding applications.
4. MENTOR IR re-engages with programs in 2-3 years for reassessment.

HOW DOES NQMS IMPROVE THE QUALITY OF MENTORING?

Improves program practices

Improves quality of mentoring relationships for youth

Improves outcomes for kids

NQMS can also show increases in quality in the field of mentoring over time.
